

Worry-Free

Product Description

Kidde's [Worry-Free](#) product line is designed to make choosing the right alarm for the right location simple and quick. It is the first UL-listed comprehensive line of smoke, carbon monoxide (CO) and combination smoke/CO alarms containing a sealed, lithium battery that lasts 10 years. Available in both battery-only and hardwired with battery backup power options, the Worry-Free alarms offer a decade of protection without having to replace a battery or hear a low-battery chirp. At the end of its life span, the alarm notifies homeowners when it should be replaced. In addition, the alarms are available with location-based features, such as an LED light for the hallway alarms, and a voice warning in the hardwired combination alarm.

Why long life smoke alarms are needed?

According to the [NFPA](#), a home fire occurs approximately once every 86 seconds in the U.S. and found that a working smoke alarm cuts the chances of dying in a fire in half. In addition, three out of every five home fire deaths result from fires in homes with no smoke alarms or no working smoke alarms, mainly due to dead or missing batteries.

With a sealed, long-life lithium battery smoke alarm, homeowners can enjoy peace of mind knowing that their homes' smoke alarms are always on – operating 24 hours per day, seven days per week for 10 years – that's a decade of hassle-free protection. Fire experts recommend replacing all smoke alarms every 10 years because aging models may not operate effectively.

Benefits of Worry Free Smoke Alarms

- **It's Always On:** 24 hour/day, 7 day/week protection from smoke and fire
- **Decade of protection:** sealed lithium battery provides 10 years of continuous power
- **Maintenance-free, hassle-free:** never replace a battery during the alarm's operating life and no need to worry about the batteries being removed
- **Goodbye late night low battery chirps:** an end-of-life chirp tells you when it's time to replace the alarm
- **Location-based attributes** make it simple to select the right alarm for the right location in your home
- **Money savings:** no batteries to buy and replace every six months, save up to \$40 over the life of the alarm
- **Quick and easy installation:** simply twist the alarm onto the mounting bracket and it activates

Overall Product Line Features

- UL Listed
- 85 decibel alarm
- Test-Reset Button tests the alarm circuitry and horn. Resets memory after alarm has sounded.
- End-of-life signal chirps every 30-45 seconds when alarm needs replaced
- Deactivation switch disables the alarm and makes the batteries safe for disposal once the unit has reached the end of its 10-year life. Tamper resistant feature prohibits a disabled alarm from being placed back onto the mounting bracket.
- 10-Year Limited Warranty

Availability: Kidde's Worry-Free product line range from \$25 to \$49, and are available at www.HomeDepot.com and at The Home Depot store locations as well as various online retailers.
