

RBUN

Trigger Input and Relay Module

AC mains-powered, surface mounting relay module with battery back-up

Operational Features

Trigger

The RBUN causes interlinked smoke, heat, carbon monoxide alarm(s) to sound alarm in the temporal three (smoke alarm pattern) and the relay to activate when an interconnected sprinkler flow switch is activated.

It can also be used as an interface with other auxiliary devices with a NO volt-free contact, such as manual call points.

Relay with volt-free contacts

Relay activates when interlinked smoke / heat alarm(s) sound an alarm. The installer **MUST** pre-select the Selector switch on relay module selected to 'SMOKE'

OR

Relay activates when the interlinked carbon monoxide alarm(s) sound an alarm. The installer **MUST** pre-select the Selector switch on relay module to 'CO'.

Trigger Input and Relay Module

Technical Specifications

General

Order Code	RBUN
Supply Voltage	230V AC 50Hz, 50mA Max
Battery Back-up	User replaceable 1-year 9V Alkaline
Interconnection	Connects with up to 24 Kidde and Firex mains-powered alarms
Mounting and Installation	Surface mounting with cable entry via rear cut-outs and side trunking
Output Relay Contacts	Contact ratings: 230V AC @ 3A; 24V DC @ 3A
Sprinkler Interconnect	9V DC output with return for connection to auxiliary NO volt-free contact

Weights and Dimensions

Dimensions	133.5mm x 31.5mm
Weight (without packaging)	222g
Single Carton Dimensions	33mm x 136mm x 136mm
Weight (with packaging)	270g
Case Quantity	6 units
Outer Case Dimensions	205mm x 150mm x 150mm
Outer Case Weight	1.70kg

Warranty

5-Year manufacturer's warranty

Barcodes

UPC Barcode	0-047871-281527
ITF Outer Code	100-47871-281524
