

# Worry-Free

***No more battery changes or late night low battery chirps!***

## **Product Description**

Kidde Worry Free Smoke Alarms offer a variety of benefits to the millions of Americans who rely on continuous battery-powered smoke and fire detection in their homes. The alarms are powered by sealed, long-life lithium batteries for 10 years (the life of the alarm), meaning they are always on. Each of the four alarms includes features designed to address location-specific safety needs such as a light in the hallway for egress and innovative smart sensing technology for kitchens to minimize nuisance alarms caused by cooking.

## **Long-life Sealed Lithium Battery: Why it's needed**

While smoke alarms are installed in 96 percent of US homes, 20 percent of those alarms are not functioning, mainly due to dead or missing batteries. Moreover, two-thirds of residential fire deaths occur in homes without smoke alarms or in homes with non-functioning smoke alarms.

With a sealed, long-life lithium battery smoke alarm, homeowners can enjoy peace of mind knowing that their homes' smoke alarms are always on – operating 24 hours per day, seven days per week for 10 years – that's a decade of hassle-free protection. The National Fire Protection Association recommends replacing smoke alarms every 10 years.

## **Benefits of Worry Free Smoke Alarms**

- **It's Always On:** 24 hr/day, 7 day/week protection from smoke and fire
- **Decade of protection:** sealed lithium battery provides 10 years of continuous power
- **Maintenance-free, hassle-free:** never replace a battery during the alarm's operating life and no need to worry about the batteries being removed
- **Goodbye late night low battery chirps:** an end-of-life chirp tells you when it's time to replace the alarm
- **Location-based attributes** make it simple to select the right alarm for the right location in your home
- **Money savings:** no batteries to buy and replace every six months, save up to \$40 over the life of the alarm
- **Quick and easy installation:** simply twist the alarm onto the mounting bracket and it activates

## **Overall Product Line Features**

- UL Listed
- 85 decibel alarm
- Only smoke alarms with a photoelectric smoke sensor programmed to reduce nuisance alarms
- Sealed-in lithium battery prevents tampering or removal; operates 24/7 for a decade
- Hush button temporarily silences nuisance and false alarms
- Test-Reset Button tests the alarm circuitry and horn. Resets memory after alarm has sounded.
- End-of-life signal chirps every 30-45 seconds when alarm needs replaced
- Deactivation switch disables the alarm and makes the batteries safe for disposal once the unit has reached the end of its 10-year life. Tamper resistant feature prohibits a disabled alarm from being placed back onto the mounting bracket.
- 10-Year Limited Warranty
